*Every gun that is made, every warship launched, every rocket fired signifies, in the final sense, a theft from those who hunger and are not fed, those who are cold and are not clothed.... The cost of one modern heavy bomber is this: a modern brick school in more than 30 cities.... It is two fine, fully equipped hospitals.... We pay for a single fighter plane with a half million bushels of wheat.... We pay for a single destroyer with new homes that could have housed more than 8,000 people.*
