"We can't win the war on 2-month funding intervals. I would submit we have now been at this Iraq war longer than it took us to win World War II when we were fighting both Japan and Germany, and still we are no closer, and, I would submit, further from what they define as "victory."" (Providing For Consideration Of H.R. 2237-5/10/07)

"The President made a bad, unnecessary decision. Equally bad, he created a situation that we now have to deal with because a precipitous withdrawal could ensure that Iraq will become a haven for terrorists. He says we must STAY THE COURSE but that is no longer prudent. We must CHANGE THE COURSE. We have toppled a dictator, facilitated free elections, and given the Iraqis an opportunity for democratic government. Our troops have done everything we have asked of them, and now we should reward them by gradually redeploying them." (www.arcuriforcongress.com)
