

President Obama:

Don't just talk peace, take action. Cancel Nuclear Modernization plans and take steps towards a world without nuclear weapons.

President Obama, your trillion-dollar nuclear modernization plans will make us less secure. Former Secretary of Defense William Perry agrees, the LRSO in particular is a threat to our security. And, we know that new weapons systems will proliferate. The best way to stop terrorist groups from acquiring nuclear weapons is to abolish these weapons. Instead of investing in weapons systems we should never use, let's invest in programs we need: for example, criminal justice reform, public education and infrastructure.

Please take these steps towards a world free of nuclear weapons:

1. Cancel plans to modernize our nuclear weapons arsenal.
2. Take our missiles off of hair-trigger alert.
3. Implement the Nuclear Non-Proliferation Treaty.
4. Commit that the U.S. will never be the first to use nuclear weapons.

Sincerely,

Address Line 2:

*"We may not be able to eliminate man's capacity to do evil, so nations and the alliances that we form must possess the means to defend ourselves. But among those nations like my own that hold nuclear stockpiles, **we must have the courage to escape the logic of fear and pursue a world without them.** We may not realize this goal in my lifetime, but persistent effort can roll back the possibility of catastrophe. **We can chart a course that leads to the destruction of these stockpiles. We can stop the spread to new nations and secure deadly materials from fanatics."***
